

THE OUIJA BOARD

In the US in Ohio there lived a girl called Sally. She lived in a collage dorm with her two roommates Frank and Alicia. When they were at school they heard from Jaiden about the mysteries „OUIJA BOARD “. She said: „There’s a rumor that if you buy the „OUIJA BOARD” on Halloween evening and use it, a spirit will haunt you for the rest of your life “!

We didn’t believe her so we bought it coincidentally on Halloween evening for ourselves. When we got to our room we were too busy to open it, so we put it on a shelf. After a few weeks when the winter holidays came we decided to open and start playing the „OUIJA BOARD “. We started the séance and we asked: „Are there any spirits that can hear us? “. The pancetta moved and said: „Yes“. We asked: „Are you a good spirit or a bad spirit? “. It spelled bad. „Are you going to haunt us?“ It didn’t reply and suddenly a book fell over the shelf, and then it said „yes “. We were so scared, but we continued. We asked a couple of questions and we said good bye and went to sleep. When we were asleep we had the same dream of us running from a spirit named George. He was a WW2 veteran and he was not happy. He chased us through walls and teleported us everywhere and tried to kill us. We barely survived and woke

up at 4 am. We couldn't fall back asleep and we heard banging and knocking all night. Frank got a brilliant idea; he got a cross and holy water for protection and we poured the holy water and had the cross in our hands and fell back asleep. We woke up at 9 am and noticed that the banging stopped, so I went on the computer and tried to find a solution for the spirit, but there was no solution for our problem. We didn't know what to do. So we decided to go to the library and find a solution there. We read some books about spirits, ghosts and other paranormal stuff but they were all fantasies and theories. My phone started ringing. I answered-it said:

- „If you continue to look for a solution I'm going to be mad and hurt you.“

I hung up because I didn't believe him and I thought someone was pranking me. We continued to search in the library. We found a book called „What to do when a spirit is haunting “. It said make a séance and try to communicate with it and ask it a couple of questions like: Why are you here? Do you plan on haunting us? If he said yes on the haunting question, then ask him to stop and if that doesn't work, then get an exorcist for help. We went back to our dorm and started the séance like in the instructions in the book. We asked for how much more is he going to haunt us? He replied:

„Until you are all dead “. At that moment it threw something at me and luckily I dodged it. We quickly finished the séance and ran to an exorcist that lived nearby. In a panic Frank tripped and the spirit got him and possessed him. We quickly rang the doorbell for the exorcist Matt and he came out and asked:

- „Hold your horses kids, what’s the hurry?“ - he asked.
- „The spirit got Frank!“ - said Alicia.
- „What spirit?“ - he asked.
- „We awakened a spirit by playing the „OUIJA BOARD “and it started haunting us and said that his name is George and that he is a WW2 veteran and now he possessed Frank“-said Alicia.
- „I see“-Matt said-„and you need me to help you get rid of him.„
- Yea-me and Alicia said.
- Here’s the plan-he said-we are going to lead him into the spirit trap-
- What’s a spirit trap? -said Alicia.
- A spirit trap is when we make a specially drawn circle with four crosses in a square formation and holy water in the circle and the crosses. -he said.
- But how are we going to lead him in? -I said.

- It's easy, just get him to chase you and walk across the spirit trap and he's trapped.

We set up the spirit trap and I lead Frank to the trap and then the exorcist started the ritual. He said some Latin words and told us to pour the holy water. The spirit left Frank and went in a random dog and ran away. We got back to our dorm and tidied it. A couple of years passed and we now wore seniors in collage and we decided to adopt a dog. Little did we know the dog had the spirit George in it. Yes, George the WW2 veteran. Nothing odd happened the first few weeks, but in the third week we had a dream about us running from the spirit and just like the first dream we had with him, he tried to kill us and teleported us around and we barely made it and woke up at 3 am. We quickly got our dog, locked the room and we brought holy water. We poured the holy water and we fell back asleep with a cross on our hands. We woke up at 10 am from the barking of our dog. We called a paranormal investigator. And he came at 11 am with his electro magnet device that can sense electro magnets which ghost, spirits, animals and humans make when they move, she had special goggles that can see infra-red rays, which means that she can see the temperature that we give off and a special radio that when it's on it makes communication with spirits and ghosts easier. She started looking around our apartment and saw some activity in our

kitchen where our dog was. She turned around the corner and saw that it was our dog. She didn't think much of it and continued the search. After the search she didn't find anything and went back home. We were kind of confused, but we thought that it might have been a coincidence of us having the same nightmare as a couple of years ago. Oh, how wrong we were. The next weeks we were having a holiday because that week school was canceled. We got back to our dorm on Friday (we went on the holiday on Monday) to find our dog there. I said: „Oh how silly of us we forgot our dog here “. I was cooking dinner- chicken and mashed potatoes on Halloween evening. When I put the turkey in the oven and the temperature rose so high that the oven broke and the turkey was overcooked in a second. And then the dog took the knife I was holding and tried to stab me. I quickly got the knife out of its mouth and locked the dog in the dog cage. The dog said to us: „I'm George and I'm back angrier and more powerful than ever. “ We went to the exorcist house and rang the doorbell. He came out and asked: „What's going on kids? “

„The spirit is back and he's in a dog!“- we screamed.

The exorcist said: „Well, I guess we are doing the ritual again. “

We made the spirit trap again and put our dog in it. We started the ritual and the spirit went out of the dog and because the

spirit went out with a lot of force it threw the dog out flying towards me. I have fast reflexes and caught him. The spirit came out, it looked like green fire with black eyes and a black mouth. It had two fire like arms and it looked like his legs were stuck in the spirit trap. The exorcist called more exorcists and priests but they needed some time to get here so we had to wait for them. In the meantime, the spirit started to throw cars, trees, benches anything it could and started chaos. When the priests and exorcists came it was a mess. The priests said some Latin words and it shrunk and shrunk until it was a foot big and exploded and around it there was fire. We called 911 and the fire department came but they could not put out the fire. One of the priests had holy water and put it out with it and finally the spirit was killed. We learnt a useful lesson - never buy an „OUIJA BOARD“ for Halloween and I hope you also won't buy it.

THE END
